Now Available!

ez2mix
portable dispensing system

Dilution Control Made Easy

Delivering a **safe** and **easy**
yet **affordable** system for your customers!

This portable dispensing system fills ready to use (RTU) spray bottles, mop buckets or auto scrubbers from any standard water hose connection. Unscrew the cap to reveal the SaTflo™ fitment system that allows the product to flow through the dispensing unit, providing the right cleaning dilution.

BENEFITS

- Increase employee safety
- Reduce spills and inaccurate dilutions
- Ensure consistent product performance
- Fill RTU spray bottles, buckets and auto scrubbers consistently
- Portable Hand-Held Dispensing System compatible with all ez2mix products

A COMPLETE PROGRAM

- Two secondary labels and accessories
- Color coded system for easy recognition
- Icon system indicating proper use

RETROFIT FOR WALL-MOUNT DISPENSING

Cap adaptors are available in multiple colors to permit use of ez2mix products with most wall-mounted chemical dispensers.

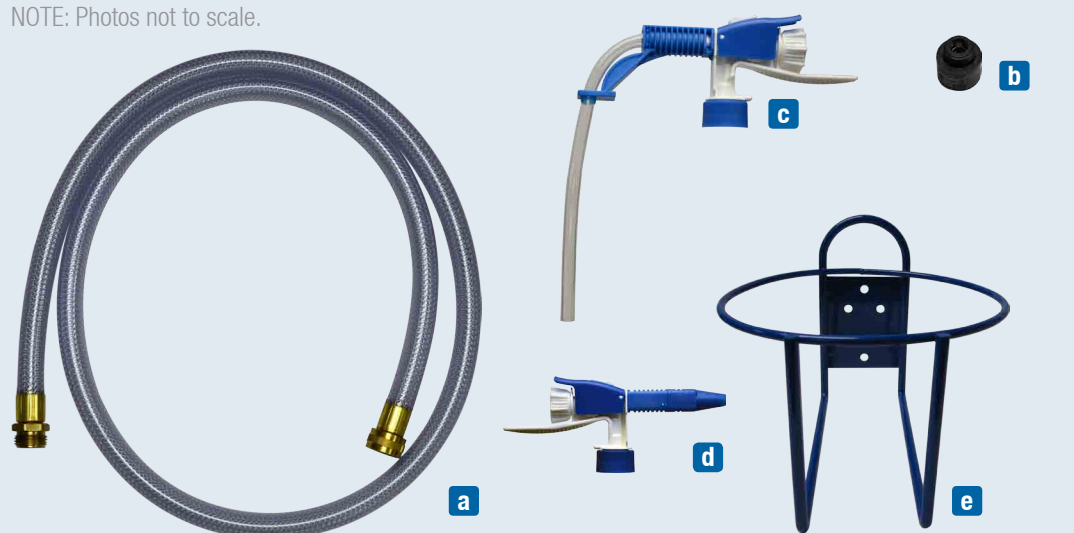

FOLLOW THESE ez2mix STEPS

- 1 Remove cap from bottle to expose SaTflo™ bottle insert.
- 2 Place portable dispensing unit onto neck of bottle.
- 3 Turn the collar on the portable dispensing unit to tighten.
- 4 Attach your water source to the back of the portable dispensing unit.
- 5 Turn water on.
- 6 Depress lever down to begin filling.
- 7 Release lever when filled to desired level.
- 8 When finished filling, turn off water.
- 9 Disconnect the portable dispensing unit from the water source.
