

64 ounces  
COMMERCIAL &  
RESIDENTIAL  
APPLICATION

## Hot Tub & Spa Jet & Pipe System Cleaner

- Will not harm the hot tub's finish and/or components of the piping system.
- Cleans, deodorizes, conditions, and maintains the entire hot tub system.
- Cleans or removes stains from algae, mold, mildew, or other nonpublic health organisms that builds up in jets, pumps, and pipes that lie within the walls of your hot tub.
- Works in all water conditions.
- Breaks up and removes minerals such as iron and calcium deposits found in the piping system, returning the hot tub's water flow to full capacity.

### DIRECTIONS:

(for large 200-700 gallon capacity hot tubs)

**Do not bathe in or use hot tub during cleaning process.**

1. Add entire contents (64 oz.) of Splish Splash® cleaner to hot tub.
2. Turn hot tub on and run system for 15 minutes.
3. Turn off pump. Allow product to soak for 90 minutes.
4. Turn hot tub on and run for an additional 15 minutes.
5. Turn off pump and drain completely.
6. Rinse with fresh water, hot tub is ready for use.
