## dispensing systems

### DISPENSING FROM MOBILE UNIT

- 1 Remove cap from bottle to reveal colored insert
- 2 Place portable dispensing unit onto neck of bottle
- 3 Turn the collar on the portable dispensing unit to tighten
- 4 Attach your water source to the back of the portable dispensing unit
- 5 With water on, depress the lever on the handle down to begin filling
- 6 Release lever when filled to desired level
- 7 Turn water source off

### DISPENSING FROM WALL-MOUNT UNIT

- 1 Connect the product(s) to the corresponding colored cap adaptor(s)
- 2 Make sure the labels on the dial correspond with the correct products
- 3 Remove the cap to reveal colored insert
- 4 Screw the matching colored cap adaptor to the bottle
- 5 Place the product on the wire rack
- 6 Turn the system on to prime all the fill lines
- 7 Your system is now ready to dispense
