F-G Grout Cleaner

Tile & Grout Cleaner / Restorer

Use for restorative cleaning and daily maintenance of:

- Porcelain floor & wall tile / grout
- Ceramic floor & wall tile / grout
- Quarry tile & grout
- Brick pavers & grout

Simple and effective, use in:

- Bathrooms / Locker rooms
- Building entrances & lobbies
- Convenience stores
- Quick serve restaurants & eating areas
- Food preparation areas
- Kitchens / Food processing floors
- Schools / Universities
- Manufacturing / Warehousing operations
- Commercial properties
- Municipalities

DIRECTIONS:

1. Sweep floor to remove loose soil and debris.
2. Dilute solution with warm / hot water in a mop bucket or automatic scrubber and follow directions below:

Light Soil:

- Dilute 2-6 oz. per gallon of water.
- Wet mop or auto scrub the floor.
- Pick-up solution and rinse floor with clean water.

Medium Soil (grout slightly discolored when dry):

- Dilute 12 oz. per gallon of water.
- Apply solution to floor and let cleaning solution stand for 10 minutes.
- Agitate with machine or deck brush when first applied and just before solution is picked up.
- Do not allow solution to dry on the floor.
- Pick-up solution and rinse floor with clean water.

Heavy Soil / Restoration:

- Dilute 32 -48 oz. per gallon of water.
- Apply solution to floor and let cleaning solution stand for 20 minutes.
- Agitate with machine or deck brush when first applied and just before solution is picked up.
- Do not allow solution to dry on the floor.
- Pick-up solution and rinse floor with clean water.
