

LONG-TERM CARE

Assisted Living
Senior Living
Nursing Homes

Cleaners, disinfectants, floor care and specialty chemicals for the health and safety of residents and staff.

HEALTH & COMFORT

Residents of long-term care facilities thrive in surroundings that are clean, healthy and comfortable. Environments that remind them of home contribute to their wellness as well as peace of mind for friends and family. A cleaner, healthier environment is also a safer one. Healthy living and working spaces produce higher resident, visitor and staff satisfaction, sustaining the long-term health of your bottom line.

INFECTION CONTROL

Floors, surfaces and restrooms that look and smell clean are important. Even more important, however, is that environments are disinfected properly to reduce the risk of cross contamination, and to control viruses and bacteria that can spread quickly in close quarters and be harmful for residents' delicate immune systems.

EXPERIENCE

For over a century, Nyco has been a leader in facility cleaning, disinfecting and floor care. We understand the unique and challenging needs of professionals that work in long-term care environments. Whether it's housekeeping, odor control, infection prevention, carpet stain removal, or kitchen cleaning, our brands help keep residents, staff and visitors healthy and safe. We have the cleaning needs of every area of your facility covered.

- Patient & Resident Rooms
- Restrooms – Private and Public
- Floors
- Lobbies & Common Areas
- Rehab & PT Areas
- High Touch Areas
- Grounds & Operations
- Kitchen
- Laundry

SUPPORT

- Nyco partners with you to create a **realistic and affordable maintenance program** for your long-term care facility
- We provide **procedural training and technical support** for your facility maintenance and nursing staff
- Our disinfecting products kill dangerous microorganisms like MRSA* and Influenza*, helping to **reduce the risk of infection and outbreaks** in your facility
- Our floor care products create clean, safe floors that offer protection and help **reduce slips and falls**
- A variety of dilution control and chemical management systems **control costs, improve patient safety and promote health code compliance**
- Odor control solutions make **residents and families feel comfortable** and “more at home”
- Training support includes wall charts, job cards, cleaning frequency charts, training literature, a comprehensive website with SDS and product directions, and calculators for chemical management systems

*Check product labels or nycoproducts.com for specific germ kill claims.
