

Neutral 7

Floor Film Neutralizer

Use Neutral 7 to rinse and condition floors before recoating. It neutralizes the pH of stripper and alkaline floor cleaner residue that can interfere with the application of sealers and finishes. Helps reduce color loss and damage to tiles caused by alkaline strippers. Use on all hard floors including resilient tile, stone, ceramic/porcelain, concrete, sealed wood, and terrazzo.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

Final rinse after stripping:

1. Dilute 2 oz. per gallon of clean water.
2. Mop or scrub floors.
3. Change water frequently.

Ice melt residue removal:

1. Dilute 2-3 oz. per gallon of clean water.
2. Mop or scrub floors.
3. Change water frequently.
