

# Restore 10

## Floor Finish Restorer & Spray Buff

Restore 10 is a dual purpose floor enhancer and buffing compound which restores the gloss and appearance to any floor. Use as a mop on floor restorer for high speed and propane burnishing programs and also as a spray buffing compound for high and low speed buffing. Can be used on any floor and will increase gloss, appearance and durability. Highly mark resistant, it will harden, restore, and reinvigorate finishes that are worn from repeated buffing and burnishing. Use of Restore 10 creates a more even level of appearance and extend the life cycle of any finish, lowering the overall cost of floor maintenance.

### DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

Floor must be clean before using.

#### High speed floor restoration:

1. Dilute 1 part product with up to 5 parts water.
2. Apply to floor, allow to dry and then buff or burnish.

#### Spray buff:

1. Dilute 1 part product with 2 parts water.
2. Apply fine mist on floor in front of buffer/burnisher.

### FAST FACTS
