

Alkaline pH Booster

Alkaline booster for food processing and industrial cleaning applications where a more alkaline solution is required. A separate pH booster permits more control over costs with increased cleaning performance. Meet HACCP and food industry standards in food processing applications with Alkaline pH Booster. Low foaming solution will not contribute to foam in CIP (Cleaning-In-Place), vacuum recovery, or process washing procedures. Effective in all water temperatures and conditions.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

Contains caustic. Do not use on aluminum, pewter or other soft metals. Consult your chemical representative for specific use applications and directions.

FAST FACTS

- Boosts pH of cleaning solutions
- Low foaming
- Nonchlorinated
- Odor free
- Free rinsing
