

Silverware PreSoak

Fast-acting and high performance presoak for silver, flatware, and food preparation utensils. Loosens dried and hardened food soils. Effective on protein, starch, and other hard to remove soils. Low foaming solution will not interfere with dishmachine operation. Contains corrosion inhibitors and metal protectors. Safe on metal and plastic surfaces.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

1. Place silverware and flatware in a plastic container.
2. Add ½ oz. (15 mL) of Silverware PreSoak to 1 gallon (4 liters) of water.
3. Allow utensils to soak for 10 minutes before running through the dish machine wash cycle.

FAST FACTS

- Easy to use liquid formulation
- Low foaming solution
- Use on metal and plastic
- Noncaustic
- Improves cleaning and operational efficiency
