

Metal Safe

Liquid Automatic Dish Detergent

Heavy duty metal safe detergent for use in automatic dishwashing systems. Loosens and emulsifies soils from pot/pans, trays, dishes, glassware, plastic, and utensils. Low foam, works in all water temperatures and conditions. Spot-free rinsing. Ideal for use in conveyor, flight type, and single rack dish machines. Excellent performance and results in bakery pan washers and other low foam cleaning operations.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

Automatic dish/pot & pan machines with dispensers: Use test kit and pH measurements to set proper dilution based upon water conditions and soil load.

Manual feeding:

1. Use ¼ oz. per 1-3 gallons (7.4 mL per 4-11 liters) of water.
2. Adjust as necessary.

For other applications, consult your chemical sales/technical representative for proper use and dilution recommendations.
