

# Dust Trax

## Dust Mop Treatment

Control dust on virtually any hard surface with this easy-to-use aerosol dust mop treatment. Turns dust mops and dust cloths into dust magnets! Floors which are regularly dust mopped last longer, look better, and cost less to maintain. Oil-based formulation make pretreating dust mops and cloths quick and easy.

### DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

1. Shake can before using.
2. Hold can 6-8 inches from dust mop or dust cloth and spray a light mist directly on mop or cloth.
3. Allow treatment to fully penetrate. Do not oversaturate.
4. Dust as usual.
5. Best results are obtained when mops and cloths are treated and stored in plastic bags overnight.
6. Reapply to mops or cloths as needed.
7. Shake lint/dust out of mop or cloth and clean in washing machine.
8. Retreat after washing.
