e.mix

Flexible Dilution Control System

**Lets you stay
in control**

A **simple, reliable, economical** dilution control program that promotes health, safety regulatory compliance, and environmental stewardship.

e.mix is easy to use. Its closed-loop, leak resistant system accurately dilutes cleaning concentrates for a variety of applications. It helps protect the health and wellness of staff and building occupants by eliminating exposure to concentrated chemicals as well as the potential for accidental mixing of harmful chemicals.

A COMPLETE PROGRAM

- Choose the wall-mounted dispenser or the mobile hand-held dispenser, or use both
- Multiple products can be used with a single dispenser
- Built-in metering tips in each product container
- Dual dilution tips in each chemical product for both high and low flow rates
- Easy-to-understand training and communication materials
- Bilingual, color-coded, and numerical application wall charts
- MSDS and secondary labels included in each case of product
- Cost analysis feature for accurate work loading breakdowns

**SIMPLE
TO USE**

An Ideal Solution for Facility Managers

For Facility Managers, e.mix Dilution Control Program does it all. This simple system helps control costs, improve building occupant and employee safety, and enhance the overall appearance of buildings, in addition to many other benefits:

- Manage budgets with predictable chemical costs
- Reduce employee exposure to concentrated chemicals and mixing errors
- Ensure proper building cleaning with no waste, through accurate chemical dilutions
- Save space through low profile product packaging design
- Implement employee training through the e.mix Training Program

- 1 Remove cap from concentrate bottle
- 2 Insert bottle into dispenser until it clicks
- 3 Product is now ready to dispense
