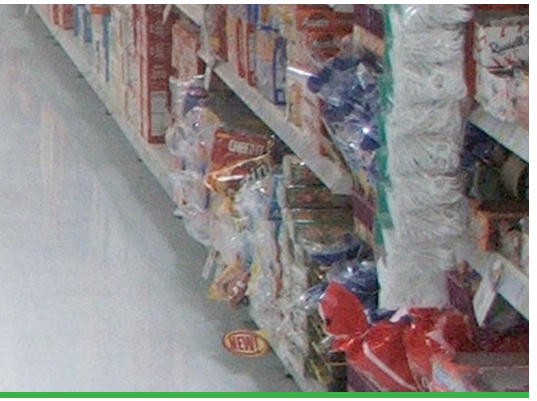
FLOOR MAINTENANCE SCHEDULE

SUPERMARKET / RETAIL



› Scrub and Recoat Program

DAILY PROCEDURES

1. Dust mop floor as needed to remove loose dirt and soils.
2. Change/clean entrance matting.
3. Damp mop/auto scrub floor using neutral cleaner. Spot mop spills, etc. as needed.

WEEKLY PROCEDURES

1. Dust mop floor to remove loose dirt and soils. Use long handle scraper to remove gum and/or sticky soils.
2. Clean floor with neutral cleaner and automatic scrubber to remove dried soils.
3. Walk perimeter, inspect aisles, and gondola areas, scrubbing as needed with doodle bug scrub pad and bucket of neutral cleaner. Rinse with clean water.

MONTHLY PROCEDURES

1. Dust mop floor to remove loose dirt and soils. Use long handle scraper to remove gum and/or sticky soils.
2. Clean floor with neutral cleaner and aggressive scrub pad. Use doodle bug or edging brush along edges, under gondolas, displays, etc. Rinse floor with clean water. Allow floor to dry.
3. Apply coats of floor finish as needed using clean mop/applicator. Allow adequate drying time between coats and before opening up area to foot traffic.
