

Automatic Hands-Free Soap Dispenser

Automatic 1000ml large capacity dispenser is great for use with liquid soaps or gel sanitizers. Contains an easy to use refillable cartridge. Uses 4 C batteries and has a low power warning, as indicated when the LED light consistently flashes. Dispenser is easy to install and comes with mounting accessories and wall mount. Transparent window allows for easy viewing of product usage. Ideal for use in clubs, schools, lodging, spas, healthcare, industry and sports complexes. For best results, dispenser should be utilized in high-traffic areas.

DIRECTIONS

Read the user manual carefully before using.

1. Carefully follow instructions in user manual to install dispenser.
2. Once dispenser is ready to use with product inside, wave hand under dispenser in order to activate sensor.
3. With soap or sanitizer in hand, rub hands together briskly, working product into knuckles, skin creases and around fingernails.
