

PROFESSIONAL

FORMULA IV

ZING®

ALUMINUM PONTOON/BOAT CLEANER

DESCRIPTION

ZING® Professional Aluminum Pontoon & Boat Cleaner cleans and brightens the toughest oxidation and staining on aluminum pontoons, boat hulls and lower units. Quickly removes marine deposits, scum, oxidation and discoloration. Brightens and restores aluminum that has oxidized and become dull due to stains and the effects of weather and water over time. Excellent for use on pontoons and boats in both fresh and salt water. Apply **ZING® Professional Aluminum Pontoon & Boat Cleaner** with our **ZING® Mop Applicator** or **ZING® Acid Resistant Spray Applicator**.

FEATURES

- Cleans and brightens aluminum in one step
- Professional strength cleaning power
- Removes scum, oxidation and discoloration
- Use on fresh and salt water boats
- Removes stubborn stains and residue from algae, barnacles and zebra mussels
- Contains no phosphates

DIRECTIONS

Read entire label and directions before using. Do not apply ZING® Aluminum Pontoon & Boat Cleaner to a dry hot surface. Cool surface by wetting with water. Avoid working in direct sunlight. Wear protective gloves and glasses when using this product. Safe on fiberglass, painted surfaces or metal surfaces when used as directed.

HEAVY STAIN: Use ZING® Aluminum Pontoon & Boat Cleaner at full strength.

MILD STAIN: Add 1 part ZING® Aluminum Pontoon & Boat Cleaner to 1 part water.

1. Lightly pre-wet surface to be cleaned before applying ZING® Aluminum Pontoon & Boat Cleaner.
2. Using a ZING® Mop Applicator or ZING® Acid Resistant Spray Applicator, saturate an approximate 4' square area, applying ZING® from bottom to top.
3. Leave on surface for 3-5 minutes to penetrate heavy stains. Scrub with ZING® Mop Applicator or nylon brush if necessary. **DO NOT** allow ZING® Aluminum Pontoon & Boat Cleaner to dry on surface.
4. Rinse thoroughly with warm water.
5. Repeat process on remainder of pontoon or boat, or on same area if necessary to remove stubborn stains.

NOTE: Difficult to remove stains may require additional applications and/or may need to be scrubbed with ZING® Mop Applicator or nylon brush.

CHEMICAL & PHYSICAL PROPERTIES

Appearance	Colorless Liquid
Odor	Acidic
pH	< 1.0
Viscosity	Water Thin
Solubility in Water	Complete
Specific Gravity	1.06

PACKAGING

N879-Q12 / 10011	12 x 1 Quarts/Case
N879-G4 / 10012	4 x 1 Gallons/Case
N879-P5 / 10013	.5 Gallon (Each)
N879-D55 / 10055	.55 Gallon (Each)
