

MARINE SAFE

# ZING®

## ALUMINUM PONTOON & BOAT CLEANER

### DESCRIPTION

**ZING® Marine Safe Aluminum Pontoon & Boat Cleaner** is best for pontoon owners and detailers who want performance and a higher level of safety than offered by traditional cleaners. It cleans and brightens aluminum, improving both performance and appearance of pontoons. This non fuming, easy-to-use cleaner can be used daily or anytime in-season to remove waterline stains and marine soils on aluminum pontoons. It is excellent for removing water scale buildup on exhaust ports and lower units of outboard motors.

### FEATURES

- Cleans and brightens aluminum!
- Removes marine stains and oxidation
- Removes stubborn stains and residue from algae, barnacles and zebra mussels
- VOC free, phosphate free
- Contains readily biodegradable ingredients
- Use on both fresh and salt water boats

### DIRECTIONS

**Read entire label and directions before using. Do not apply ZING® Marine Safe Aluminum Pontoon & Boat Cleaner to a dry hot surface. Cool surface by wetting with water. Avoid working in direct sunlight.** Wear protective gloves and glasses when using this product. Safe on fiberglass, painted surfaces or metal surfaces when used as directed.

**HEAVY STAIN:** Use ZING® Marine Safe Aluminum Pontoon & Boat Cleaner at full strength.

**MILD STAIN:** Add 1 part ZING® Marine Safe Aluminum Pontoon & Boat Cleaner to 1 part water.

1. Lightly pre-wet surface to be cleaned before applying ZING® Marine Safe Aluminum Pontoon & Boat Cleaner.
2. Using a ZING® Mop Applicator or ZING® Acid Resistant Spray Applicator, saturate an approximate 4' square area, applying ZING® from bottom to top.
3. Leave on surface for 3-5 minutes to penetrate heavy stains. Scrub with ZING® Mop Applicator or nylon brush if necessary. **DO NOT** allow ZING® Marine Safe Aluminum Pontoon & Boat Cleaner to dry on surface.
4. Rinse thoroughly with warm water.
5. Repeat process on remainder of pontoon or boat, or on same area if necessary to remove stubborn stains.

**NOTE:** Difficult to remove stains may require additional applications and/or may need to be scrubbed with ZING® Mop Applicator or nylon brush.

### CHEMICAL & PHYSICAL PROPERTIES

Appearance ..... Clear Colorless Liquid  
 Odor ..... Acidic  
 pH ..... <2.0  
 VOC Content ..... None  
 Phosphate Content ..... None

### PACKAGING

Z809-Q12 10121 ..... 12 Quarts/Case  
 Z809-G4 10122 ..... 4 Gallon/Case
