

MARINE SAFE

# ZING®

## BOAT HULL CLEANER

### DESCRIPTION

**ZING® Marine Safe Boat Hull Cleaner** is designed for boat owners and detailers who want performance and a higher level of safety than offered by traditional products. This non fuming, easy-to-use cleaner can be used daily or anytime in-season to remove waterline stains and heavier soils on boat hulls. **ZING® Marine Safe Boat Hull Cleaner** can be used to remove water scale buildup on exhaust ports and lower units of outboard motors. Ideal for fiberglass, gel coat, painted wood and metal hulls. It is excellent for removing water scale buildup on exhaust ports and lower units of outboard motors.

### FEATURES

- Removes marine deposits, scum, and oxidation
- Removes stubborn stains and residue from algae, barnacles and zebra mussels
- Phosphate free, VOC free
- Contains readily biodegradable ingredients
- Use in fresh and salt water

### DIRECTIONS

**Read entire label and directions before using. Do not apply ZING® Marine Safe Boat Hull Cleaner to a dry hot surface. Cool surface by wetting with water. Avoid working in direct sunlight.** Wear protective gloves and glasses when using this product. Safe on fiberglass and painted surfaces when used as directed.

**HEAVY STAIN:** Use ZING® Marine Safe Boat Hull Cleaner at full strength.

**MILD STAIN:** Add 1 part ZING® Marine Safe Boat Hull Cleaner to 1 part water.

1. Lightly pre-wet surface to be cleaned before applying ZING® Marine Safe Boat Hull Cleaner.
2. Using a ZING® Mop Applicator or ZING® Acid Resistant Spray Applicator, saturate an approximate 4' square area, applying ZING® from bottom to top.
3. Leave on surface for 3-5 minutes to penetrate heavy stains. Scrub with ZING® Mop Applicator or nylon brush if necessary. **DO NOT** allow ZING® Marine Safe Boat Hull Cleaner to dry on surface.
4. Rinse thoroughly with warm water.
5. Repeat process on remainder of boat hull, or on same area if necessary to remove stubborn stains.

**NOTE:** Difficult to remove stains may require additional applications and/or may need to be scrubbed with ZING® Mop Applicator or nylon brush.

### CHEMICAL & PHYSICAL PROPERTIES

Appearance .....	Clear Colorless Liquid
Odor .....	Neutral
pH .....	<1.0
Viscosity .....	Thickened
VOC Content .....	None
Phosphate Content .....	None

### PACKAGING

Z904-Q12 10117 .....	12 Quart/Case
Z904-G4 10118 .....	4 Gallon/Case
