## COOK LINE CLEANER For Ovens, Griddles, Fryers, & Rotisseries LÍNEA LIMPIADOR DEL COCINERO

### DESCRIPTION

Rich clinging foam and heavy duty highly alkaline stabilized cleaning agents are combined in this remarkable product. Use of this product reduces the amount of scrubbing and scraping needed to remove baked-on soils from walls and racking found in ovens, grills, and other food preparation equipment. The concentrated blend of penetrating agents and detergents loosen and lift soils from surfaces for easier removal. Carbonized soils are quickly reduced after contact with this powerful cleaner for fast and efficient cleaning. Rich, clinging foam adheres to surfaces for thorough cleaning of equipment, hoods, walls, and other vertical surfaces. Especially effective grills, grates, racks, interior surfaces, etc. Free rinsing.

### DIRECTIONS

Wear rubber gloves. Protect eyes. Recommended for use on porcelain, iron and stainless steel. Do not use on aluminum, linoleum, asphalt tile, painted surfaces, floors, furniture and fabrics. Protect these surfaces when using. **For Oven, Griddle, and Rotisserie Cleaning:** Spray on surface to be cleaned. Allow to penetrate for 5 minutes then wipe off with a damp sponge or towel. In establishments governed by USDA, the use of all cleaning compounds in edible product processing areas must be followed by a potable water rinse. For heavily encrusted areas, repeat application using an aggressive pad. For heavy soil, allow 10 or more minutes. Do not apply on surfaces above 200°F. Rinse product off surfaces cleaned. **For Fat Fry Cleaning:** Drain the fat from the unit. Add water until the heating element is covered. Add 4 oz. of Mr. D to each gallon of water. Turn on the heat and boil for 20 to 30 minutes. Very heavy carbon deposits may take longer. Drain the unit, brushing sides with a stiff brush. Flush the unit thoroughly with water.

## OVEN AND GRILL CLEANER

Biodegradable  
LIMPIADOR PARA HORNO Y PARRILLAS

### DESCRIPTION

A concentrated alkaline emulsifier which cleans baked-on soils in deep fat fryers, ovens, rotisseries, broilers, and other food equipment. Penetrates, loosens, and removes greasy carbonized buildups with a minimum of effort. Shortening in fryers stays fresh longer in equipment which is kept clean. Low foaming formulation holds loosened oils and grease in suspension for easy rinsing and removal. Effective in a variety of applications on grease, oil, protein, and carbonized buildups.

### DIRECTIONS

Wear rubber gloves. Do not use on aluminum, linoleum, asphalt tile, copper tone, painted surfaces and fabrics. Protect these surfaces when using.

**Oven & Grills:** Preheat oven to 200°F. Turn oven off. Spray with cleaner. Allow to remain for 5 to 10 minutes. Wipe off and rinse with clear water. For stubborn spots, repeat application. If surface is cool, allow to work for 15 minutes before wiping cleaner off.

**Other Surfaces:** (Deep fat fryers, stainless steel counters, chrome, etc.) Use 4 ounces per gallon of water. Spray or wipe on surface. Allow to remain a few minutes then rinse off.

### LIMPIADOR DE ENZIMAS BACTERIALES PARA DESAGUES

#### DESCRIPTION

Open and maintain your drains with ENZ-A-BAC. The natural way to break down organic materials such as grease, hair, soap, fats, food, waste, and scum which cause drains and plumbing to run slowly. Reduces buildup in pipes and drain lines. Keeps drain and plumbing flowing freely. Reduces and eliminates odors. Use weekly for preventative maintenance. Eliminates bothersome odors caused by buildups and blockages. Use regularly as part of the overall building maintenance program. Reduces plumbing and repair costs.

#### DIRECTIONS

**Drain Cleaning:** To clean drains and traps use 2 to 4 ounces washed into the drain with a cup of lukewarm water. Allow to stand overnight. Repeat treatments using 2 to 4 ounces weekly or as needed to keep the system functioning properly. **Septic Systems:** Add 8 ounces per 1,000 gallons tank capacity by flushing through the toilet. Repeat weekly adding 4 ounces per 1,000 gallons of tank capacity. **Grease Traps:** For best results start treatment after the grease trap has been cleaned. Add directly to the trap 1 quart per 25 gallons of capacity. One week later begin preventative maintenance schedule: rinse trap and flush with lukewarm water, add 8 ounces per 25 gallons of capacity and allow to work overnight. Repeat once a week. Do not subject product to extremely hot or boiling water, disinfectants, or chlorinated dishwashing products.

## DISH DETERGENT For Dishes, Glassware, Pans and Silverware DETERGENTE PARA VAJILLAS

### DESCRIPTION

High sudsing action cleans dishes, pots, pans, silverware and utensils in a variety of water temperatures and conditions. Synergistic blend of surfactants, penetrating agents and water conditioning detergents create superior results. Glassware and dishes are thoroughly cleaned and rinse free of spots. Medium viscosity permits easy pouring and dispensing. Gentle solution reduces skin irritation. Emollients nourish and replenish natural skin oils. Effective on dried foods, oily and greasy surfaces. Cherry fragrance. Concentrated for added economy.

### DIRECTIONS

**Dishes, Glassware, or General Cleaning:** Add 2 ounces to 3 gallons of hot water. If extra sudsing is desired, add DON PINK to sink first, then run open tap water full force with required amount of water. Wash, then rinse with clear water and drain dry. No toweling is necessary.

**Pots, Pans and Heavy Duty Cleaning:** Use 3 to 6 ounces in 3 gallons of water. Allow dirty utensils to soak several minutes to soften and loosen hard food particles and grease. Wash, rinse and drain.

SureGrip Daily Cleaner / Degreaser is the first line of defense in the battle against slippery floors. Unlike most cleaner-degreasers, it is alkaline free. Alkaline cleaners leave residue behind and will turn a wet floor into a serious slip hazard. Our **Daily Cleaner / Degreaser** emulsifies and suspends oil, grease and other contaminants, lifting from deep in the microscopic pores of the floor surface. Once the grease is emulsified, it can easily be extracted or rinsed away leaving the floor surface residue-free. When **SureGrip Cleaner / Degreaser** is used daily it will reduce the occurrence of polymerization, greatly improving surface traction.

**Recommended uses:**

- All flooring including: Slate Ceramic, Saltlito Quarry, Recycled PVC Terrazzo, Concrete Wood, VCT
- Walls
- Equipment
- Alkaline Free – No Slippery Residue
- Effectively Emulsifies Grease
- Contains no Phosphates, Butyl or Bleaches

## CLEANER DEGREASER

**Removes Heavy Deposits of Grease, Baked On Carbon, Soot, Gums, Resins, Oils, Inks, Waxes, and Other Heavy Soils**

LIMPIADOR DESGRASADOR

### DESCRIPTION

Super powerful and fast-acting degreasing cleaner for the toughest cleaning jobs. Nonflammable, this water-based degreaser quickly cuts through heavy buildups and burned-on carbonized soils for fast-cleaning action. Special penetrants and conditioners remove grease, oils, and other soils, leaving surfaces thoroughly clean. Inhibitors prevent flash rusting on cleaned metal surfaces.

### DIRECTIONS

Test surfaces for compatibility before use. Do not allow to dry on glass surfaces. Dilute solution according to the degree of soil and method of cleaning. Recommended dilution ratios of cleaner to water are as follows:

- Light soil:** 1:40.
- Medium soil:** 1:20.
- Heavy soil:** 1:10.
- Oven & grill cleaning:** 1:3.
- Pressure washing:** adjust dilution as needed up to 1:256.

## BACTERIAL ENZYMATIC DRAIN CLEANER

**Sewage Digestant Concentrate**  
**LIMPIADOR DE ENZIMAS BACTERIALES PARA DESAGUES**

### DESCRIPTION

Open and maintain your drains with ENZ-A-BAC. The natural way to break down organic materials such as grease, hair, soap, fats, food, waste, and scum which cause drains and plumbing to run slowly. Reduces buildup in pipes and drain lines. Keeps drain and plumbing flowing freely. Reduces and eliminates odors. Use weekly for preventative maintenance. Eliminates bothersome odors caused by buildups and blockages. Use regularly as part of the overall building maintenance program. Reduces plumbing and repair costs.

### DIRECTIONS

**Drain Cleaning:** To clean drains and traps use 2 to 4 ounces washed into the drain with a cup of lukewarm water. Allow to stand overnight. Repeat treatments using 2 to 4 ounces weekly or as needed to keep the system functioning properly. **Septic Systems:** Add 8 ounces per 1,000 gallons tank capacity by flushing through the toilet. Repeat weekly adding 4 ounces per 1,000 gallons of tank capacity. **Grease Traps:** For best results start treatment after the grease trap has been cleaned. Add directly to the trap 1 quart per 25 gallons of capacity. One week later begin preventative maintenance schedule: rinse trap and flush with lukewarm water, add 8 ounces per 25 gallons of capacity and allow to work overnight. Repeat once a week. Do not subject product to extremely hot or boiling water, disinfectants, or chlorinated dishwashing products.

## FOAMING HAND SOAP Containing the Anti-Bacterial Agent PCMX JABÓN DE LA MANO QUE HACE ESPUMA / SAVON À MAIN MOUSSANT

### DESCRIPTION

High foaming hand cleaner containing the anti-bacterial agent PCMX. Tough enough for removing dirt, grease, and grime, yet gentle on skin and hands. Buffered pH for use on hands and skin. Produces a rich foaming stable lather for exceptional cleaning. Rinses freely, leaving skin soft, clean, and refreshed. Ideal for use in offices, schools, clinics, industry, health care & nursing homes, health & fitness centers, pre-schools, restaurants, etc. Delightful fresh scent creates a cleaner more attractive environment. Foam soap uses up to 40% less soap during hand washing for added economy and savings. Less water is used and is environmentally preferable to liquid soaps.

### DIRECTIONS

Wet hands and apply small amount of SANI-FOAM in palm of hand. Rub hands together briskly, working lather into knuckles, skin creases and around fingernails. Use fingernail brush to remove soil from under nails. Rinse hands with water.

**Note:** For best results, this product must be used through a hand soap dispenser designed specifically for "foaming hand soaps".

## BACTERIAL ENZYMATIC DRAIN CLEANER

**Sewage Digestant Concentrate**  
**LIMPIADOR DE ENZIMAS BACTERIALES PARA DESAGUES**

### DESCRIPTION

Open and maintain your drains with ENZ-A-BAC. The natural way to break down organic materials such as grease, hair, soap, fats, food, waste, and scum which cause drains and plumbing to run slowly. Reduces buildup in pipes and drain lines. Keeps drain and plumbing flowing freely. Reduces and eliminates odors. Use weekly for preventative maintenance. Eliminates bothersome odors caused by buildups and blockages. Use regularly as part of the overall building maintenance program. Reduces plumbing and repair costs.

### DIRECTIONS

**Drain Cleaning:** To clean drains and traps use 2 to 4 ounces washed into the drain with a cup of lukewarm water. Allow to stand overnight. Repeat treatments using 2 to 4 ounces weekly or as needed to keep the system functioning properly. **Septic Systems:** Add 8 ounces per 1,000 gallons tank capacity by flushing through the toilet. Repeat weekly adding 4 ounces per 1,000 gallons of tank capacity. **Grease Traps:** For best results start treatment after the grease trap has been cleaned. Add directly to the trap 1 quart per 25 gallons of capacity. One week later begin preventative maintenance schedule: rinse trap and flush with lukewarm water, add 8 ounces per 25 gallons of capacity and allow to work overnight. Repeat once a week. Do not subject product to extremely hot or boiling water, disinfectants, or chlorinated dishwashing products.

## URIC ACID ERADICATOR Quick Cleaning Action ERRADICADOR DE ÁCIDO ÚRICO

### DESCRIPTION

Bioenzymatic formulation of several selected bacterial strains designed to work on soils and odors found in restrooms. Use in drains, and on surfaces which collect soils and can be the source of offensive odors, reduction in drain flow, and possible health contamination hazards. Special biodegradable surfactants help to loosen soils for removal. Bacterial strains then attack the source of odors or drain flow restriction by naturally breaking down and digesting the material. Effective on proteins, grease, fats, and cellulose. Clean fresh fragrance also enhances the rooms appeal after the cleaning process has been completed. Especially effective when used to remove and neutralize odors around urinals and toilet bowls. Can be used in restricted areas where indoor air quality restrictions prevent the use of aerosol air fresheners.

### DIRECTIONS

**Restrooms:** To clean drain lines in showers, sinks, washbasins and bathtubs, use 2 oz. in each drain. This product produces the optimum results when applied at the end of the day or during a low-traffic period. Repeat treatment using 2 oz. weekly.

**Toilet Bowls:** Pour on bowl swab while holding swab over bowl. Clean surfaces and under flush rims. Allow solution to stay in bowl for 5-10 minutes.

**Urinals:** Turn off flushing water. Pour 2 oz. into urinal.

**Floors:** Mix 6 oz. to 1 gallon of lukewarm water. Mop floor thoroughly, giving special attention to areas around toilet bowl and under urinals. Allow to air dry.

**Carpet and Fabric Care:** To remove odor and stains from milk, vomit, urine, feces, blood, coffee, tea, wine, smoke, etc., mix 4-8 oz. to 1 gallon water. Check for colorfast by spraying fabric or carpet in a hidden area until wet. If any color rubs off, do not use.

**Laundry:** Pre-soak or spot spray for organic stains. Mix 4-6 oz. to 1 gallon of lukewarm water.

**Septic Systems:** Add 8 oz. per 1,000 gallons tank capacity by flushing through the toilet. Repeat weekly, adding 4 oz. per 1,000 gallons of tank capacity.

**Grease Traps:** For best results, start treatment after the grease trap has been cleaned. Add directly to the trap 1 quart per 25 gallons of capacity. One week later, begin preventative maintenance schedule. Rinse trap and flush with lukewarm water. Add 8 oz. per 25 gallons of capacity and allow to work overnight. Repeat once a week.

**Portable Toilets:** Add 1 gal. on liquid capacity to the holding tank. Cover solids with water to aid digestion. Tanks should be pumped weekly.

**RVs:** Provide effective odor control for RVs and chemical toilets used in public transportation vehicles. Use 20 oz. per 1 gallon in the hold tank.

**At an RV Dump Station:** Use 1 gallon per 50 gallon tank capacity. Use 1 pint per week to maintain.
